## Additional Information for Centres Entering Candidates for the Pilot Examination in Functional Skills

The enclosed results are issued by the Assessment and Qualifications Alliance to you as Head of the centre through which entry was made. You should communicate these results to candidates (including Private Candidates). Any further distribution or use of the results documentation is at your discretion as Head of centre.

### Printed Results Documentation

Your results pack includes the following documents for candidates entered for any of the Functional Skills in English, ICT and Mathematics. Centres with candidates for Mathematics (93001) will also receive a spreadsheet reporting total marks and UMS for this unit. The UMS is only relevant where Functional Mathematics is being used as a component of the post-16 Pilot GCSE Use of Mathematics qualification (9350).

### Centre Cumulative Record of Unit Results

The information is presented as a matrix showing for each candidate the Unit Code followed by associated information printed across the page. The results are reported as a level or a letter Q or X, listed for each candidate in order of candidate number.

### Component Marks Report

The *Component Marks Report* gives the following information for each Functional Skills component/unit.

- the maximum scaled mark, the mean mark and standard deviation for the total AQA entry
- the minimum mark required for each level for the unit
- for each candidate, the scaled mark gained on each component. For internally-assessed components the mark after moderation is also given under the heading 'Mod'.

*Please note that this report may not reflect late amendments*

## Candidate Statement of Provisional Results

The Functional Skills are accredited qualifications at Levels 1 or 2 of the National Qualifications Framework.

A pass is indicated by one of the two Levels 1 or 2, of which Level 2 is the higher.

Candidates whose level of achievement is below the minimum judged by AQA to be of sufficient standard to be recorded on a certificate will receive an UNCLASSIFIED (U(u)) result.

Results for Functional Mathematics (an award in 9305 or Unit 93001P or 93001S) appear on the statement under the heading "Functional Skills". Results for Functional ICT and English appear under the "Unit Results" heading.

The *Candidate Statement of Provisional Results* is not a certificate and we reserve the right to correct the information given on these statements.

## Access to Scripts

Access to Scripts services for original scripts are available for all Functional Skills written or objective tests components offered for this series. For further information on Access to Scripts and Post-Results services please see paragraph 8 of the *Publication of Results (RES/INF)* booklet for the May/June 2008 exams (series 086G/V/M) available from the *Administration/Procedures/Post-Results Services* section of our website.
